Reduces Ammonia &  
Keeps Your  
Flock Healthy

\* Bag labeled as Sweet PDZ Horse Stall Refresher, however it's completely safe & effective for poultry application. Sold in 25lb & 40lb Bags

**DIRECTIONS FOR USE**

**APPROXIMATE RATE OF APPLICATION:**  
In a typical coop and/or run you will apply a visible covering typically 1-2 lbs.

Re-apply every couple of days or as necessary (your nose can tell you). The amount and regularity of reapplication will depend on the number of hens and/or chicks you have in a coop, as well as your ventilation.

Sweet PDZ can be applied with bare hands, a cup/scoop or spreader.
